Statement by the Sale Manager

Fifty years, half a century, is some record for the breeders of Polled Shorthorn cattle in the Shenandoah Valley Sale area.

This year on April 10th you'll have an opportunity to help these breeders celebrate that Golden Anniversary. They will sell eighteen bulls. The balance of the offering will consist of quality females, open and bred, and a good lot of cows with calf at foot by sale time, conditioned to turn out to pasture. All in all, this should be a good set of cattle.

Again this year a number of horned cattle will be included in the offering.

The bulls being offered range in ages from yearlings to four year olds of popular pedigree and proven production.

The merits of the breed are well known. You can benefit only by establishing a herd or adding to your own, whether registered or commercial. Bring a neighbor and come see us!

CAMSON DESIGN 2D x - This is a double bred Birmingham Nugget III bull that was purchased from Campbell Farms, Ltd., Moffat, Ontario and is a brother of Camson Design who went to Scotland to head the Polled herd at Westdrums. The Campbell Farms dispersion sale has proven what a bull with this breeding is worth. We are selling him because our main herd bull, Green Meadows Embarker, is also by Birmingham Nugget III, thus giving us, we feel, too much inbreeding. Don't fail to look this bull over if you are in the market for a Polled bull.
